AI PRODUCT MANAGER

Professional Summary

AI Product Manager and Product Design Leader with **4+ years of relevant experience in AI-enabled products, Product Strategy, Enterprise SaaS, Product Discovery, Roadmaps, MVP Definition, and Cross-Functional Delivery**, backed by 18+ years of experience across digital products and UX. Experienced in **Generative AI, LLMs, Agentic AI, Human-in-the-Loop Solutions, Product Requirements, Backlog Prioritization, User Research, and Product Analytics**. Proven ability to identify **high-value AI use cases,** translate customer and business problems into scalable product capabilities, and define measurable outcomes. Skilled in **Business Case Development, ROI Assessment, Market & Competitive Analysis, Go-to-Market Planning, Product KPIs, Experimentation, and Adoption Metrics**. Experienced in **Platform Product Thinking, Responsible AI, Accessibility, and Design Systems Governance**. Proven ability to simplify complex workflows, influence senior stakeholders, and deliver scalable, customer-focused products that improve adoption, efficiency, and user experience

Technical Skills

- **AI Product Management:** Product Strategy | Product Vision | Roadmaps | Product Discovery | MVP | PRDs | User Stories | Acceptance Criteria | Backlog & Feature Prioritization | Product Lifecycle

- **Product Strategy & Growth:** Business Case & ROI | Market & Competitive Analysis | Go-to-Market | Product Launch | AI Evaluation Metrics
- **Generative AI:** Generative AI | LLMs | Agentic AI | Human-in-the-Loop | AI Use Cases | AI-Assisted Prototyping | Responsible AI
- **Product Delivery & Analytics:** Agile | Scrum | Sprint & Release Planning | Product KPIs | Adoption & Engagement Metrics | Experimentation | Data-Driven Decisions | Stakeholder Management | Enterprise SaaS | Platform Product Thinking | Design Systems Governance
- **Research & Tools:** User Research | Customer Discovery | Journey Mapping | Usability Testing | Accessibility/WCAG | Jira | Confluence | Figma | FigJam | Claude | Figma Make | n8n

Work Experience

AI Product Manager **Cognizant, Canada** **Aug 2025- Till Date**

- Drive product discovery and definition for AI-enabled enterprise solutions, translating customer pain points and business needs into prioritized product capabilities and measurable outcomes
- Define AI product vision, roadmaps, MVP scope, PRDs, user stories, acceptance criteria, and release priorities, reducing development rework by approximately 20–25%
- Identify and prioritize Generative AI, LLM, intelligent automation, and AI-assisted workflow opportunities, contributing to approximately 20–30% reduction in manual processing effort
- Partner with AI/ML, engineering, data, UX, architecture, and business teams across discovery, development, testing, launch, and optimization
- Lead stakeholder interviews, discovery workshops, and user research, prioritizing AI use cases based on customer value, business impact, feasibility, and risk
- Define human-in-the-loop AI workflows and user-centered AI experiences, reducing avoidable errors by approximately 15–20% and supporting stronger user adoption
- Define and monitor product KPIs including adoption, engagement, task completion, workflow efficiency, customer satisfaction, and AI response quality

- Own and prioritize the product backlog and validate features through prototypes, usability testing, feedback sessions, and MVP experiments, reducing discovery-to-development cycle time by approximately 20%
- Partner with technical and governance teams on Responsible AI, privacy, security, explainability, reliability, and human oversight, while presenting roadmap progress and product outcomes to senior stakeholders

Product Design Manager **Linarc, India** **Dec 2021 – Aug 2025**

- Led product experience and platform strategy across a six-module enterprise SaaS construction and workflow automation platform, supporting complex contractor and project-management workflows.
- Partnered with product and engineering teams to translate operational requirements into scalable workflows, reusable interaction patterns, and platform capabilities.
- Defined standardized product patterns across Scheduler, RFI, Submittals, Punchlist, Change Orders, and Budget/SOV, enabling consistent product delivery.
- Designed complex Construction Scheduler and role-based experiences, covering Gantt timelines, WBS, dependencies, contractor views, and access to commercially sensitive information.
- Established reusable product templates and component standards that reduced design-to-development inconsistencies by approximately 40%, while improving engineering collaboration and reducing rework

Sr. Experience Design Lead **Olam International, Singapore** **Feb 2019 – Nov 2021**

- Led product experience initiatives for a B2B Agri-FinTech and global supply-chain platform supporting farmers and field operations.
- Translated complex pricing, logistics, payment, and supply-chain requirements into scalable digital workflows.
- Conducted customer research across Indonesia, Nigeria, and India, designing solutions for multilingual and low-bandwidth environments.
- Developed reusable product patterns that improved task completion by approximately 30%, collaborating with business, technology, and regional stakeholders

UX Consultant **HTC Global Services, India** **May 2018 – Jan 2019**

- Supported enterprise digital-product modernization through requirements discovery, UX strategy, rapid prototyping, and usability testing.
- Partnered with cross-functional teams to translate business requirements into intuitive product experiences and improve user validation

Lead UX/UI Designer **Innocellence, Singapore** **Aug 2012 – Apr 2018**

- Led UX/UI strategy and delivery for healthcare and pharmaceutical digital products, contributing to 20+ product launches, including a telemedicine platform serving 1M+ users.
- Defined customer journeys, prototypes, and design-governance frameworks while supporting enterprise healthcare clients including Eli Lilly

Education & Certifications

- MSc |Psychology | University of Madras | India | Jan 2018 – Dec 2020
- Diploma | Mobile App Design | Singapore Polytechnic | Singapore | Apr 2015 – Mar 2016
- B. Com | Commerce | Madurai Kamaraj University | India | Jun 2001 – Apr 2004
- IBM AI Product Manager Professional Certificate (Coursera) | NN/g UX Management | NN/g UX Certification (UXC) | Brad Frost – AI & Atomic Design Systems
